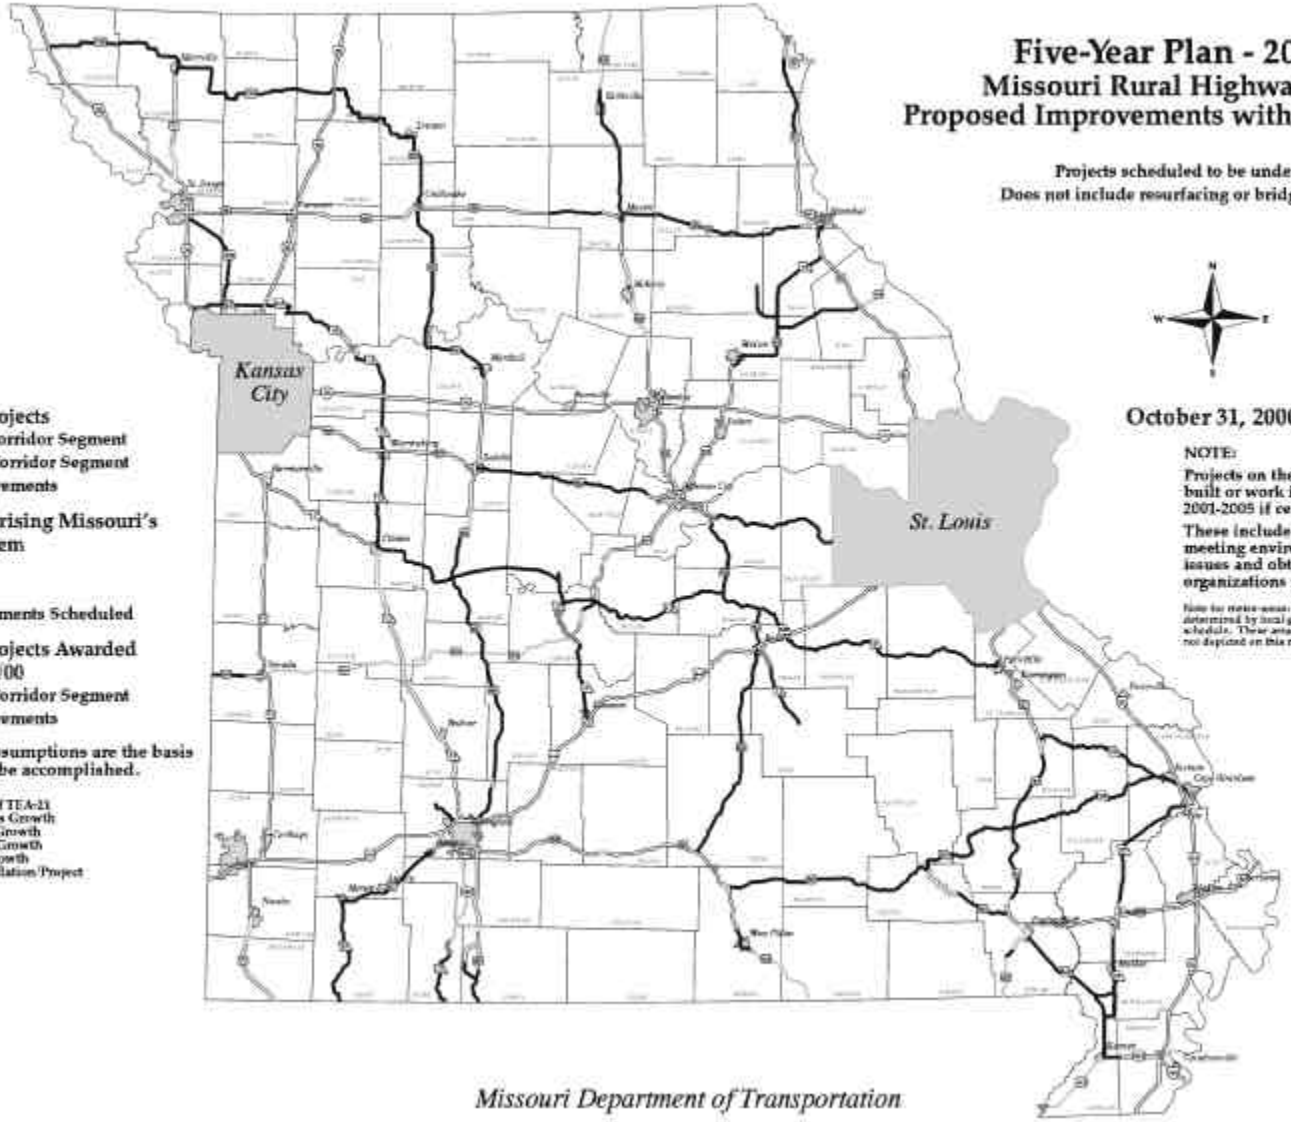
Five-Year Plan - 2001-2005
Missouri Rural Highway Corridors
Proposed Improvements with Current Funding

Projects scheduled to be under contract.
Does not include resurfacing or bridge rehabilitation.



October 31, 2000

NOTE:

Projects on these corridors are expected to be built or work is expected to begin within the period 2001-2005 if certain criteria are met.

These include funding according to anticipated levels, meeting environmental requirements, resolving legal issues and obtaining concurrence of local planning organizations in project selection and funding

Note for metro-areas: Projects in St. Louis and Kansas City are determined by local governments on a three-year planning schedule. These areas select their own projects, which are not depicted on this map.

5-Year Plan Corridor Projects

- Two-Lane Corridor Segment
- Four-Lane Corridor Segment
- Spot Improvements

Other Highways Comprising Missouri's Corridor System

- Two-Lane
- Four Lane
