How to Drive a Diverging Diamond Interchange

Traveling on Stadium:
Motorists traveling on Stadium will cross over to the opposite side of the road at the first traffic signal. After driving over I-70, they can either turn left to access I-70 or travel through the second signal to cross back over and continue on Stadium.

Motorists entering the interstate do not have to cross opposing traffic.

Motorists entering the on ramps from each direction must merge with traffic before reaching the interstate.
