Kevin Keith, Director

March 11, 2011

Dear Consultant:

The Missouri Highways and Transportation Commission is requesting the services of a consulting engineering firm, pending STIP approval, to perform the described professional services for the projects included on the attached list.

If your firm would like to be considered for these consulting services, you may express your interest by responding to the appropriate office, which is indicated on the attachments. Limit your letter of interest to no more than two pages. This letter should include a statement to indicate why your firm is interested in the project. It should also include any other information which might help us in the selection process, such as the persons or team you would assign to each project, the backgrounds of those individuals, and other projects your company has recently completed or are now active. We will utilize the consultant information already on file so we will not need a lengthy submittal of other general company information.

DBE firms must be certified by the Missouri Department of Transportation in order to be counted as participation towards an established DBE Goal. We encourage DBE firms to submit letters of interest as prime consultants for any projects they feel can be managed by their firm.

We request all letters be received by 3:00 pm, March 24, 2011 at the appropriate office.

Sincerely,

Kathy Harvey
State Design Engineer

Email responses are encouraged

Bates County, Route 52

Job No:	J7P0802
Location:	About 2 miles E. of Amoret.
Proposed Improvement:	Replace bridge J0597 over Mulberry Creek.
Length:	The existing 4 span bridge is a total of 192 feet long, consisting of about 4 nearly equal spans.
Approximate Construction Cost:	\$421,000
DBE Goal	0%
Letting Date:	3/16/2012
Consultant Services Required:	<p>Roadway: Field Surveying for Roadway Design and Bridge Survey. Right of Way Plan design will be done in-house by District 7 personnel.</p> <p>Bridge: Preparation of Bridge Memorandums (including preliminary estimate), hydraulic study and boring location/ requests. Preliminary and final bridge design of the new bridge.</p> <p>The geotechnical investigation will be conducted by MoDOT.</p>
Other Comments:	<p>Roadway Survey Due by June 2, 2011. Sounding Request Due by June 24, 2011. Sounding Locations Surveyed by July 1, 2011. 100% unsigned and unsealed bridge plans are due to the Bridge Division Review Section by December 5, 2011. Final electronic signed and sealed bridge plans and JSP's must be submitted to MoDOT's Design Division by January 4, 2012 for a March 2012 letting.</p> <p>Consultant will need to coordinate directly with District 7 regarding roadway design, providing survey for roadway design, project schedule, and to develop the Bridge Memos. Also direct coordination and interaction will be required with MoDOT's Geotechnical Section.</p> <p>No interviews – due to the short timeframe it is anticipated that selection will be made within two weeks. Goal is to have the project under contract with a consultant quickly.</p>

Bates County, Route 52
