Dear Consultant:

The Franklin County Highway Department and City of St. Clair and St. Clair School District R-XIII is requesting the services of a consulting engineering firm to perform the described professional services for the project included on the attached list. If your firm would like to be considered for these consulting services, you may respond with a letter of interest to the Franklin County office. Limit your letter of interest to no more than 3 pages. Your letter of interest should include a statement indicating why your firm is interested in the project and any other information you feel may help in the selection process; including other similar projects or proposed personnel. We encourage DBE firms to submit letters of interest as prime consultants for any projects they feel can be managed by their firm. DBE firms must be certified by the Missouri Department of Transportation in order to be considered for this project.

The County requests three (3) copies of the letter of interest and they must be received by 4:00 p.m., Monday, December 21, 2009 at:

Franklin County Highway Department
RE: MO Route 30 and Bardot Letter of Interest
400 East Locust Street Room 003A
Union, MO 63084

Sincerely,

Richard Wilson
Director of Public Works

PROJECT DESCRIPTION:

This project will consist of approximately 0.34 miles of roadway and pedestrian improvements along Highway 30, generally between High School Drive and Bardot Street in St. Clair, Missouri. The project will consist of pavement widening on Route 30, north of Bardot Street, to south of School Drive. Widening will be provided to provide a center turn lane to allow for safer turning movements from the Highway. The design of a traffic signal will also be included with this project at the intersection of Route 30 and High School Drive. The anticipated schedule for this project will be to complete project engineering services in 2010, and right-of-way acquisition and construction in 2011.

This project will incorporate future improvements as part of the Safe Route to School program, sponsored by the St. Clair R-XIII School District. These improvements include pedestrian facilities and traffic signalization at the intersection of Route 30 and Bardot Street.

Consulting services for this project will include, at a minimum, topographic survey, preliminary plans, right-of-way plans, final construction documents, geology (as needed), right-of-way negotiations, and limited construction period services.

<i>Franklin County, Missouri</i>	
TIP Number:	STP-S 5206-10
Location:	St. Clair, Missouri
Proposed Improvement:	Pavement Widening, Traffic Signalization
Approximate Project Length:	0.34 miles
Approximate Construction Cost:	\$797,000
Consultant Services Required:	<i>Provide preliminary, right-of-way, and final plans and specifications for construction of pavement widening and traffic signalization at Missouri Route 30 and School Drive and provide limited construction phase services.</i>
