Re: Request for Qualifications

To Whom this may Concern:

The Joplin Area Transportation Study Organization (JATSO) is seeking to secure the services of a qualified traffic engineering consultant to create a traffic model using the TransCAD software, calibrate the model, and train staff on how to use the model.

JATSO is planning on purchasing the model at the end of FY 2009 and calibrating and training staff on the use of the model in FY 2010.

JATSO will be selecting the consultant based on their qualifications with previous projects that included constructing traffic models using the TransCAD software and their availability to training staff on the model. Consultants should provide four copies of their qualifications and experience to me at the above address no later than 5 PM on July 20, 2009. The City of Joplin at its option may conduct interviews on July 27, 2009. If selected, the consultant will be contacted and a price will be negotiated.

Please feel free to contact me at 624-0820 extension 511, or at Joplin City Hall, 602 South Main Street, Joplin, MO 64801 with any questions you may have.

Sincerely,

Chad Cornwell
Planning/ Community Development Specialist
City of Joplin
