## SPECIAL NOTICE TO CONTRACTORS

### Information Session – Opportunity for Alternative Technical Concepts (ATCs) Kansas City District --- Job No. J4I3005 (Clay County)

October 4, 2013

An information session has been scheduled to discuss how alternative technical concepts (ATCs) will be solicited on the I-35 and Pleasant Valley Road interchange reconstruction project (Job No. J4I3005) in Clay County. Although this presentation will not be a formal training session on alternative technical concepts, MoDOT will spend time detailing how they will be managed on this specific Pleasant Valley Road interchange project.

MoDOT will not be releasing preliminary plans for industry review until early November, but during the meeting MoDOT will share the overall project schedule and where we are at in the design process. The project is on track for a July 2014 letting, so any alternate technical concepts will be required to meet that schedule.

The informational meeting has been scheduled for the following date, time and location:

Date: October 11, 2013  
Time: 9:00 - 10:30 a.m.  
Location: MoDOT  
Kansas City District Office  
600 NE Colbern Road  
Lee's Summit, MO 64086  
Conference Room 136

General information on how MoDOT manages alternative technical concepts can be found in Section 147.1 of the Engineering Policy Guide (EPG):

[http://epg.modot.mo.gov/index.php?title=147.1 Alternative Technical Concepts](http://epg.modot.mo.gov/index.php?title=147.1%20Alternative%20Technical%20Concepts)

Attendance is not required but strongly recommended.

If you have any questions or require additional information, please contact:
