**GENERAL REQUIREMENTS**

- 1. If and when requested, provide services on a Time-and-Material (T&M) basis.
- 2. All services shall be performed on an as needed, if needed basis, if requested to the sole satisfaction of the Commission.
- 3. The notice of bid acceptance does not constitute a directive to proceed. Before providing supplies or services, the contractor must receive authorization in the form of a signed purchase order from the District Facilities Operations Supervisor or their designated representative.

4. The contractor shall understand and agree that no guaranteed amount of services will be requested.
5. The Contractor shall agree and understand that the acceptance of bid(s) shall not be construed as an exclusive arrangement.
6. The Contractor shall agree and understand that the Commission may secure identical or similar supplies and services from other sources at anytime.
7. The Contractor services may include but may not be limited to: plumbing, sheet metal, pipefitter, and laborer.
8. The intent of any price agreement resulting from this IFB will be for services that are estimated to be less than \$25,000 per project.

#### **SPECIFIC REQUIREMENTS**

1. Since each project differs in its specific detail, the District Facilities Operations Supervisor will initiate the work by providing the Contractor with the broad scope of work.
2. If and when requested by the District Facilities Operations Supervisor, the Contractor will be required to prepare and submit a written work plan to the District Facilities Operations Supervisor within 14 days.
3. At a minimum, the work plan must include the following information.
  - A. The services and materials required to complete the service project.

#### **PRICE CONTROL REQUIREMENTS**

1. Labor Rate. The hourly rate shall include salary, fringe benefits, overhead, general & administrative expense, and profit. The result is a fixed unit price for labor.
2. Maximum Number of Labor Hours. Experienced suppliers should be able to estimate the hours needed for a job. MoDOT will not pay for the overage. The only allowance for exceeding the maximum number of labors is through the change order process.
3. Mark-Up on Materials. When billing for time and materials work, the contractor may calculate the materials cost by adding a markup onto the price it paid. Contractors that add little to no markup on direct and indirect materials or special equipment rental will be favored in the pricing formula.
4. Not-To-Exceed Total. A total Not-To-Exceed (NTE) amount must be agreed upon for each project. Under this arrangement, the contractor can charge for its labor and materials up to a certain maximum. If the time and materials costs exceed that maximum, the contractor charges you the NTE amount and assumes the excessive costs.

Completion of work will be based on FINAL ACCEPTANCE of the building; "SUBSTANTIAL COMPLETION" will not be accepted as basis for completion.
- b. Liquidated Damages - In the event the successful Contractor fails to deliver the material within the time specified, the Department and the public will sustain damages because of such delay in delivery, the exact extent of which would be difficult to ascertain, and in order to liquidate such damage in advance it is agreed that the sum of one hundred dollars (\$100.00) per working day for each assessable working day on which the delivery has not been completed, is reasonable and the best estimate which the parties can arrive at as liquidated damages, and it is therefore agreed that said amount will be withheld from payments due the Contractor or otherwise collected from the Contractor as liquidated damages. Saturdays, Sundays, holidays and days whereas the Department has suspended work shall not be assessable days.
- c. A working day. Is defined as any day when, soil and weather conditions would permit the major operation of the project for six hours or more unless other unavoidable conditions prevent the contractor's operation. If conditions require the contractor to stop work in less than six hours, the day will not be counted as a working day. Working days will begin as soon as notice to proceed is issued. In order for MoDOT not to change a workday due to unavoidable conditions, the contractor must have enough forces, equipment, and materials on site to begin the project. The contractor must notify MoDOT inspector before 12:00 noon of said working day if forces will not be present.

**Prohibition Of Employment Of Unauthorized Aliens:**

- a. Pursuant to RSMo 285.530 (1), no business entity or employer shall knowingly employ, hire for employment, or continue to employ an unauthorized alien to perform work within the state of Missouri. As a condition for the award of any contract or grant in excess of five thousand dollars by the state or by any political subdivision of the state to a business entity, or for any business entity receiving a state-administered or subsidized tax credit, tax abatement, or loan from the state, the business entity shall, by sworn affidavit and provision of documentation, affirm its enrollment and participation in a federal work authorization program with respect to the employees working in connection with the contracted services. Every such business entity shall sign an affidavit affirming that it does not knowingly employ any person who is unauthorized alien in connection with the contracted services. [RSMO 285.530 (2)] A copy of the affidavit referenced above is provided within this document.

**Construction Safety Program**

- a. Missouri law, 292.675 RSMo, requires the awarded Contractor and its subcontractor(s) to provide a ten-hour occupational safety and health administration (OSHA) construction safety program (or a similar program approved by the Missouri Department of Labor and Industrial Relations as a qualified substitute) for their on-site employees (laborers, workmen, drivers, equipment operators, and craftsmen) who have not previously completed such a program and are directly engaged in actual construction of the improvement (or working at a nearby or adjacent facility used for construction of the improvement). The Contractor and its subcontractor(s) shall require all such employees to complete this ten-hour program, pursuant to 292.675 RSMo, unless they hold documentation on their prior completion of said program.
