Required Specifications

Materials supplied shall comply with provisions outlined in this Request For Quotation and the quality and gradation requirements of the 2011 Edition of the Missouri Standard Specifications for Highway Construction (as modified). * The specification handbook sections listed above for 3" and 6" materials are "modified" by the following statement: Vendors must provide aggregate for each of these line items that is predominantly 3" and 6" (one-sized) with very little variance (+or-). These materials are for a drainage project requiring very clean, very consistently sized aggregate, and will be subject to visual inspection and acceptance by MoDOT. As an example, on the 3" we would look for 100% passing, with percentages on the 1½" and 1" being as low as possible, and anything below 1" being practically 0% to ensure the least amount of fines.

Notification of the online posting of this solicitation was also sent to APAC-Missouri, Beville Farms Trucking, Boone Construction Company (MBE vendor), Central Stone Company, Con Agg of MO, George C. Potterfield Trucking, Harris Hauling & Supply, Knox County Stone Company, Lomax Trucking Service, M&M Trucking, Norris Quarries, Ren Potterfield Trucking, Shinn Construction, Skyline Materials, Wilkerson Brothers Quarry, but no responses were received from these vendors. Notification was sent to the MOffice of Administration Office of Equal Opportunity (OA OEO).
