\* The response from Waterwork Specialties could not be considered for award because the RFB called for the Wilkins 2-975XLS brand/model backflow preventers listed, but their quotation was for Watts 009M2QTS brand/model backflow preventers, which were not the type called for in the RFB. The Watts brand/model were not recommended to our facilities crew by the person who completes district backflow preventer inspections.

Notification of the online posting of this solicitation was also sent to D & K Supply, IBT, and Riback Supply Co., but no responses were received from these vendors. Notification was also sent to the State of Missouri Office of Administration's Office of Equal Opportunity (OA OEO).
