VENDOR NAME: _____ (Please enter your company name in this block)

SCOPE OF WORK

The Missouri Department of Transportation (MoDOT) Northeast District (NE) is seeking a qualified vendor to provide waste removal services (pumping out both liquids and solids) from the vaults (septic holding tanks) at the Mineola truck parking areas on I-70 (see the project location description above).

The East bound rest area has two vaults; one vault has a 1000 gallon containment and the other vault has two 1000 gallon tanks. The West bound rest area has one vault with two 1000 gallon tanks.

All vaults will need to be pumped out completely of all waste each time there is a service call. No partial servicing will be permitted, since the quoted pricing will be based upon the total cost for servicing all vaults completely each time service is called for. Service will be required on an "As Needed" basis. The vendor will be responsible for monitoring and assessing the needed frequency for providing service, with the final decision on adequate frequency approved by a MoDOT representative prior to servicing. Servicing must be provided within a 24-hour response time after notification of need or notice to proceed.

The vendor is required to add back in 50 gallons of fresh water and provide and add an odor control chemical in each tank after they have been pumped out. There is no source water at the facility so the vendor is required to furnish their own water source, as well as the odor control chemical.

Septic waste is subject to the Clean Water Act and must be processed at a sewer treatment plant for disposal. All waste removed from these vaults shall not be disposed of on property the vendor may have permission or permits to spread on, without first going through a proper treatment facility.

MoDOT's ownership and responsibility for the waste materials will end once the material is pumped from the vaults. The vendor shall handle and transport waste materials in a manner compliant with all applicable state, federal, or local laws. Upon request, the vendor shall notify the MoDOT Northeast District of the treatment plant or disposal center the materials were taken to.

Therefore, it is important that the vendor prints the Memorandum of Understanding (MOU) and keeps a copy for their use in this, as well as future RFB submissions.**
