Construction Safety Program

Missouri law, 292.675 RSMo, requires the awarded Contractor and its subcontractor(s) to provide a ten-hour occupational safety and health administration (OSHA) construction safety program (or a similar program approved by the Missouri Department of Labor and Industrial Relations as a qualified substitute) for their on-site employees (laborers, workmen, drivers, equipment operators, and craftsmen) who have not previously completed such a program and are directly engaged in actual construction of the improvement (or working at a nearby or adjacent facility used for construction of the improvement). The Contractor and its subcontractor(s) shall require all such employees to complete this ten-hour program, pursuant to 292.675 RSMo, unless they hold documentation on their prior completion of said program. Penalties for non-compliance include Contractor forfeiture to the Commission in the amount of \$2,500, plus \$100 per contractor and subcontractor employee for each calendar day such employee is employed beyond the elapsed time period for required program completion under 292.675 RSMo.

Prevailing Wage

The work to be performed under this solicitation is governed by the provisions of Chapter 290 RSMo, as amended, related to prevailing wages to be paid on public works. If the bid/quote is accepted, the vendor will be required to comply with the prevailing wages as fixed by the Missouri Department of Labor and Industrial Relations, in effect as of the date of the issuance of the solicitation, for each affected craft and type of workmen in the following county:

Macon. The **General Wage Order # 57** is included with the RFQ documents. Pursuant to the requirements of the Chapter 290 RSMo., not less than the prevailing hourly rate of wages, as set out in the wage order attached to and made part of the specification for work under the contract, must be paid to all workers performing work under the contract. The Contractor shall provide all information, reports and other documentation as required by MoDOT to ensure compliance with Chapter 290 RSMo., as amended, relating to prevailing wages to be paid on public works. The Contractor shall forfeit a penalty to the contracting public body of \$100 per day (or portion of a day) for each worker that is paid less than the prevailing rate for any work done under the contract by the contractor or by any subcontractor. The Contractor shall submit notarized weekly payroll affidavit documentation included with the project request for payment.

Permits, Licenses, and Safety Issues

The contract pricing shall include any permits and licenses required by law incidental to the work. The Contractor shall comply with any local laws involving safety in the prosecution of the work.

Liquidated Damages

In the event the Contractor fails to provide functional equipment and operator at the time and dates agreed to, the Department and the public will sustain damages because of any delays in completing this project in a timely manner, the exact extent of which would be difficult to ascertain, and in order to liquidate such damage in advance it is agreed that **the sum of \$250.00 per day**, for each assessable working day on which the project is unable to progress or be completed, is reasonable and the best estimate which the parties can arrive at as liquidated damages, and it is therefore agreed that said amount will be withheld from payments due the Contractor or otherwise collected from the Contractor as liquidated damages. Saturdays, Sundays, holidays and days whereas the Department has suspended work shall not be assessable days.

E-Verify

If the total project cost for this RFQ exceeds \$5,000, the awarded vendor will have to comply with the requirements of, complete the necessary forms, and provide the appropriate documents related to the federal E-Verify program.
