DESCRIPTION	SUPPLIER
<p>Control Technologies through Mid American Signal is responsible for distribution of Traficon Video Detection Equipment for the State of Missouri. MoDOT has Traficon Video Detection Equipment installed at various signal locations in the Northeast District. From a technology and training viewpoint, the differences between Traficon and Autoscope, the other approved brand of detection equipment, are distinct enough to raise compatibility issues if both types of equipment were to be used. Also, it would not be feasible to have to maintain two sets of spare parts for emergency repairs on different systems.</p>	<p>Control Technologies Attn: Derek Townsend 702 S. Persimmon St, Suite 1-B Tomball, TX. 77375 (281)-808-7222 – phone (281)-255-8414 – fax Email: derek@cttraffic.com</p> <p>Mid American Signal Attn: Jordan Schwening 2429 Mill Street Kansas City, KS. 66103 (913)-432-5002 – phone (913)-432-2213 – fax Email: jordans@midamsignal.com</p>
<p>URETEK USA is the single feasible source for their patented URETEK urethane deep injection process for filling voids under pavement.</p>	<p>URETEK USA Attn: Kevin Stumpff Regional Project Manager URETEK Great Plains Region (402)-417-8407 – cellular phone (480)-664-7585 – fax Email: kevin.stumpff@uretekusa.com</p>
