RE: Addendum 01 to Bid D5-11-039B, Hydro Demolition

Dear Bidders:

Please note that this addendum letter is to inform all potential bidders of the following clarification to RFB D5-11-039B.

Clarification:

The contractor is responsible for the cleanup of all material, both slurry water and debris/rubble as a result of the hydro demolition process. The disposal of the slurry water will be the sole responsibility of the contractor; whereas MoDOT will maintain the responsibility of the loading and hauling off of the debris/rubble after the contractor deposits material at a designated location on site.

The contractor shall pay close attention to Sections 107 and 704 of the Missouri Standard Specifications for Highway Construction, 2004.

http://www.modot.org/business/standards_and_specs/highwayspecs.htm

If you have any further questions, please call.

Thank you!

Corey Duemmel, D5 General Services
(573) 526-6956
