August 9, 2013

Vendors,

In an emergency situation the Missouri Department of Transportation is in need of a telephone quotation to repair MO Rte T in Osage County.

The Scope of Work includes purchasing and hauling Type 2 Rock Blanket (60% of the mass shall be of pieces having a volume of one cubic foot or more) and pushing it in place along with the remaining rock that is currently on the road side in order to rebuild the road base and shoulder. The site is located approximately 1 mile southwest of Hwy 63 south of Westphalia. While hauling and installation of this rock is being complete the vendor must be aware not to damage any of the existing road. This rock shall be put into place as to bring the shoulder up to within 4 to 6 inches of the existing asphalt road and our crew will finish the job with smaller base rock.

Please respond with a quote by 12:00 (noon) on Friday, August 09, 2013.

Pictures of the site will be emailed to you.
