QUESTIONS/CLARIFICATIONS

Question: What if there is a problem with limestone when digging footings. Unless there has been bore samples completed we feel it would be of our best interest to have a rock clause put into the specifications.
Answer: No determination or geotechnical data is available to precisely determine if either project will encounter significant quantities of rock. Contractor will need to plan and budget for encountering any rock that may be encountered during post-hole drilling. No direct pay will be allowed if rock is encountered during construction. Any contractor is welcome to perform core drills prior to bidding to check for subsurface rock formations, at contractor's expense. Contractor should contact me prior to performing any pre-bid core drilling.

Question: The projects are located in Buffalo and Bolivar. The 45 days allowed does not state if this is for both barns or one barn installed.
Answer: The bid intent is to allow 45 days for both projects. The major issue with completion deals with fiscal year end requirements. In lieu of our budgetary requirements, we will amend our completion time to remove the 45 day time, and now require final completion by June 15, 2011. All projects must be completed, accepted and invoiced by June 15, 2011. No advance pay will be allowed until each project is final.

Question: It states in the specifications the Redi-mix is to be provided by MODOT. My questions is this a Redi-Mix truck that is bringing in the concrete for the post that is being supplied by MODOT or is the Redi-Mix statement in the specifications referring to the bags of Redi-mix is provided for the contractor to mix themselves.
Answer: MoDOT will provide truck delivery redi-mix. MoDOT will require that any redi-mix orders allow full truckload quantities only, to avoid short load charges. MoDOT will not order redi-mix until full loads can be ordered. The main intent would be for all cement to be poured in one day.

Question: The wage rates provided are not legible. Half of the sheet in the pdf format is not printed, therefore we do not have the titles of the wages to be applied. Please provide a better copy of the wage rates for Polk and Dallas, MO counties to properly note the required wages for the project.
Answer: There was a printer/scanner problem at the time of the bid posting. New copies of the prevailing wage documents are included at the end of this addendum.

Question: The possibility of lumber being short since it was a metal building package. Please clarify it will be MODOT's responsibility to purchase addition lumber if necessary.
Answer: MoDOT will be responsible for any additional lumber that may be needed due to damage, warping, or any other issue that may come about during construction. This package is a duplication of other buildings already installed in other parts of the state, and the primary reason for other projects requiring additional lumber was due to warping.

Question: In addition, in the event this project is delayed due to additional lumber needed will the project time frame be extended due to unforeseen circumstances to prevent the cost of liquidated damages to the contractor?
Answer: MoDOT will have Facilities Staff on hand and available for inspection during the construction process. These personnel will have the ability and the resources to quickly acquire additional material if needed. No extra time will be allowed for delays from material issues. Time is of the essence to complete these projects by June 15, 2011.

Thank you,
