

SINGLE FEASIBLE SOURCE PURCHASE POSTING NOTICE

The Missouri Department of Transportation has determined that only one source can provide the products or services described below

Title: Cinders Procurement File # D209-098-R2

Description: Reed Minerals controls the distribution of coal slag materials (cinders) that are a by-product of electrical generation activities at the Thomas Hill Power Plant. These materials come in two forms: clean & washed cinders and dirty cinders. MoDOT will use these materials as needed during the contract period for various activities, jobs & projects. The vendor will submit individual pricing proposals for these materials when requested by MoDOT. MoDOT will have the right to accept or reject any pricing proposals received.

Contract Period: July 17, 2009 through July 16, 2010

Renewal Options: Up to three (3) one-year extensions, if agreed to by all parties.
