Addendum 002
Request for Quotations
“Labor & Materials to Install Overhead Door in Concrete Wall”
RFQ D8X2-7001
Issue Date: July 24, 2006

Bidders shall acknowledge receipt of Addendum 002 (two) by **signing and including with the original bid**. The due date for receipt of bids remains unchanged by this Addendum. Quotations are to be received on or before 1 p.m., local time, July 28, 2006.

Several questions submitted by vendors have had the accumulated effect of requiring an amendment to ensure the information is made available to all interested vendors.

Revised contract provisions:

- At the end of each workday it will be the vendor’s responsibility to close and secure the building’s new door opening prior to project completion. The opening shall be secured with plywood that is mounted to a wooden frame with 2” lumber. The vendor shall furnish all materials necessary for this task, including the plywood and frame.
- It will **not** be the vendor’s responsibility to remove the asphalt curb or anything between the curb and the wall on the outside of the plan’s door opening.

The change is believed to be in the interest of all potential bidders. All other terms and conditions remain unchanged and in full force.
