**1.0 General Conditions of the Contract:** During the performance of the contract, the contractor, for itself, its assignees and successors in interest (hereinafter referred to as the "**Contractor**") agrees as follows:

**1.1 Compliance with Regulations:** The contractor shall comply with the **Regulations** relative to nondiscrimination in federally-assisted programs of the Missouri Department Of Transportation, **Title 49, Code of Federal Regulations, Part 21**, as they may be amended from time to time, (hereinafter referred to as the Regulations), which are herein incorporated by reference and made a part of the contract.

**1.2 Nondiscrimination:** The contractor, with regard to the work performed by it during the contract, shall not discriminate on the grounds of **race, color, or national origin** in the selection and retention of subcontractors, including procurements of materials and leases of equipment. The contractor shall not participate either directly or indirectly in the discrimination prohibited by **Section 21.5** of the **Regulations**, including employment practices when the contract covers a program set forth in **Appendix B of Regulations**.

**1.3 Solicitations for Subcontracts, Including Procurements of Materials and Equipment:** All solicitations, either by competitive bidding or negotiation made by the contractor for work to be performed under a subcontract, including procurements of materials or leases of the contractor's obligations under this contract, shall comply with the regulations relative to nondiscrimination on the grounds of **race, sex, religion, national origin, age, color, disability, or veteran status**.

**1.4 Information and Reports:** The contractor shall provide all information and reports required by the Regulations, or Directives issued pursuant thereto, and shall permit access to its books, records, accounts, other sources of information, and its facilities as may be determined by the Missouri Department Of Transportation or the Federal Highway Administration to be pertinent to ascertain compliance with such Regulations or Directives. Where any information required of a contractor is in the exclusive possession of another who fails or refuses to furnish this information the contractor shall so certify to the Missouri Department Of Transportation, or the Federal Highway Administration as appropriate, and shall set forth what efforts it has made to obtain the information.

**1.5 Sanctions for Noncompliance:** In the event of the contractor's noncompliance with the nondiscrimination provisions of the contract, the Missouri Department Of Transportation shall impose such contract sanctions as it or the Federal Highway Administration may determine to be appropriate, including, but not limited to:

- (a) **withholding of payments to the contractor under the contract until the contractor complies, and/or**
- (b) **cancellation, termination or suspension of the contract, in whole or in part.**

**1.6 Incorporation of Provisions:** The contractor shall include the provisions of Sections 1.0 thru 1.5 above in every subcontract, including procurements of materials and leases of equipment, unless exempt by the Regulations, or Directives issued pursuant thereto. The contractor shall take such action with respect to any subcontractor or procurement as the Missouri Department Of Transportation or the Federal Highway Administration may direct as a means of enforcing such provisions including sanctions for noncompliance: Provided, however, that, in the event a contractor becomes involved in, or is threatened with, litigation with a subcontractor or supplier as a result of such direction, the contractor may request the Missouri Department of Transportation to enter into such litigation to protect the interests of the State, and, in addition, the contractor may request the United States to enter into such litigation to protect the interests of the United States.

## **2.0 Proposal, Guaranty and Contract Bond**

**2.1** Each bid shall be accompanied by a **Bid Bond, Certified Check, Cashier's Check or Bank Money Order**

payable to the **Director of Revenue--Credit State Road Fund** for an **amount equal to Five (5) Per Cent of the amount of the BID** submitted, as a guarantee that the bidder, if awarded the contract, will furnish an acceptable **performance and payment (Contract Bond) or a cashier's check, a bank money order or a certified check made payable to "Director of Revenue--Credit State Road Fund"** in an **amount equal to One Hundred (100%) of the contract price**. If a BID BOND is used (in lieu of a certified check, cashier's check, or bank money order), it must be in the form provided and executed by the bidder as principal and by a surety company authorized to do business in the **State of Missouri as surety**. The agent executing the same on behalf of the surety company must attach a current **Power of Attorney setting forth his authority to execute the bond involved**.

**2.2** Certified Checks, Cashier's Checks or Bank Money Orders of unsuccessful bidders will be returned as soon as the award is made. The checks or bank money orders of the successful bidder(s) will be retained until the contract is executed and a satisfactory **Performance and Payment (Contract Bond)** is furnished. Bid Bonds will not be returned except on specific request of the bidder.

### **3.0 Failure to Execute Contract**

**3.1** Failure to execute the contract and file acceptable performance payment (Contract Bond) or cashier's check, bank money order or certified check within **15 days** after the contract has been mailed to the bidder shall be just cause for the cancellation of the award and the forfeiture of the proposal guaranty. Award may then be made to the next lowest responsible bidder, or the work may be re-advertised and performed under contract or otherwise, as the Commission may decide. No contract shall be considered effective until it has been executed by all parties thereto.

### **4.0 Notice to Proceed**

**4.1** Within **30 days** after the execution of the contract, a "**Notice to Proceed**" will be issued by the Department. A purchase order will be attached to the "Notice to Proceed," which will specify the date or dates that the contractor can start roadway or stockpile delivery and will also include the completion dates. These dates will be in accordance with the dates shown in the bid.

### **5.0 General Performance**

**5.1** This work is to be performed under the general supervision and direction of the Missouri Department Of Transportation and, if awarded any portion of the work, the undersigned agrees to furnish at his own expense all labor and equipment required to complete the work, it being expressly understood that this bid is for completed work based upon the unit price specified and is not a bid for rental of equipment or employment of labor by the Department, and the Department is to have no direction or control over the employees used by the undersigned in performance of the work.

### **6.0 Delivery**

**6.1** The Contractor shall furnish the Missouri Department of Transportation with a planned delivery schedule at least 16 hours before starting delivery. Notification should be during the normal work day preceding the day on which the Contractor desires to initiate delivery. It will be necessary for a representative of the Missouri Department Of Transportation to be present when the material is delivered. No material will be accepted that has been dumped in the absence of the department's aggregate material checker.

**6.2** Deliveries will be at a minimum rate of **500 Tons Per Day**, unless otherwise specified in this bid. No deliveries will be made during the period from **30 minutes before sundown to sunrise**. No deliveries will be made on

**Saturdays, Sundays and holidays** unless specifically authorized by the engineer. It will be necessary for a representative of the Missouri Department Of Transportation to be present when the material is delivered. No material will be accepted that has been dumped in the absence of the Department's aggregate materials checker.

**6.3** A ticket shall be issued to all trucks hauling material, adhering to Section 8.0

**6.4** The following days shall be construed as **official holidays** under the terms of the contract:

January 1	New Year's Day
Third Monday in January	Martin Luther King Day
February 12	Lincoln's Birthday
Third Monday in February	President's Day
May 8	Truman's Birthday
Last Monday in May	Memorial Day
July 4	Independence Day
First Monday in September	Labor Day
Second Monday in October	Columbus Day
November 11	Veteran's Day
Fourth Thursday in November	Thanksgiving Day
December 25	Christmas Day

When any of the above holidays falls on a Sunday, the holiday will be observed on the following Monday; when any of the above holidays falls on a Saturday, the holiday will be observed on the immediately preceding Friday.

## **7.0 Picked Up**

**7.1** The contractor shall supply the Missouri Department of Transportation with all equipment and labor necessary to load the material onto the MoDOT trucks or those trucks designated to haul said material.

**7.2** A ticket shall be issued to all trucks hauling material adhering to Section 8.0.

**7.3** Payment will be considered full compensation for all labor and equipment necessary to complete this work.

**8.0 Ticket Information.** The printer shall be capable of keeping and printing cumulative totals for each item number in the contract. The printer shall produce a ticket in triplicate to accompany each truck load and shall be furnished to the engineer. The ticket shall show the following:

- (a) Gross, tare and net weights (masses).
- (b) Identification of the vehicle.
- (c) Current date and time.
- (d) MoDOT's Purchase Order Number.
- (e) Unique ticket number (may be preprinted on the ticket).
- (f) Item, Specification Designation and Location

**8.1 Manual ticket.** If the contractor lacks the ability to print a ticket, a manual ticket may be furnished, with the approval of the engineer.

**8.2 Printer failure.** In the event of automatic ticket printer failure, the contractor may be permitted, without approval from the engineer, to furnish manually written tickets to complete that day's operation.

**8.3 Vehicle scales** shall adhere to section 310.4 of the Missouri Standard Specifications for Highway Construction, 2004 Edition.

## **9.0 Temporary Suspension of Work**

**9.1 The District Engineer** shall have authority to suspend work wholly or in part for such period or periods as may be deemed necessary when weather or other conditions are such that in the opinion of the engineer, the work may be done at a later time with advantage to the Department or for failure on the part of the Contractor to comply with any of the provisions of the Contract. If the Department suspends the work for its own advantages and not because of the Contractor's failure to comply with the Contract, the Contractor will be allowed an equal number of calendar days after the completion date for the completion of the work. The Department may at its discretion give the Contractor an extension of time for completing the work where the Contractor incurs delays for causes beyond his control. Normal rainfall is not considered a cause qualifying for an extension of time. Claim for extension of time for all causes must be submitted by the Contractor in writing within **30 Days** after the claimed cause for the delay has ceased to exist.

## **10.0 Incentive for Accelerated Delivery**

**10.1** If, prior to the delivery deadline, the contractor's average daily delivery rate **exceed 1,250 tons** for the total award, the contractor will be paid an incentive for accelerated delivery in the amount of **2%** of the weighted average bid price per ton for the total tons delivered exceeding **1,250 tons per day**.

**10.2** Delivery from two sources on the same day to one or more maintenance sites will be counted as two days of delivery. Delivery from three sources on the same day to one or more maintenance sites will be counted as three days of delivery, etc.

**10.3** The average daily delivery rate is the total tons per award to a supplier divided by the number of days used to deliver the material. The weighted average bid price per ton is the total value of the award divided by the total tons per award. No incentive for accelerated delivery will be paid to a contractor who is being charged liquidated damages on any item in the same award.

### **EXAMPLE:**

Total Tons of Award = 20,000 tons

Total Value of Award = \$107,200

Number of Days for Delivery from 2 sources at same time = 5 days

Total number of delivery days = 2 x 5 = 10 days

Average bid price per ton = \$107,200 ÷ 20,000 tons = \$5.36 per ton

Average daily delivery rate = 20,000 tons ÷ 10 days = 2,000 tons per day

Daily tonnage Supplier due Incentive Pay = 2,000 tons - 1,250 tons = 750 tons per day

Total tons delivered exceeding daily min. rate = 750 tons x 10 = 7,500 tons

**INCENTIVE PAY = 0.02 x \$5.36/Ton x 7,500 Tons = \$804.00**

## **11.0 Subletting of Contract**

**11.1** It is specifically understood that no portion of the material shall be sublet or otherwise disposed of except with the written consent of the District Engineer. Request for permission to sublet or otherwise dispose of any part of the work shall be in writing to the District Engineer and accompanied by a showing that the organization which will perform the work is particularly experienced and equipped for such work. Consent to sublet or otherwise dispose of any portion of the work shall not be construed to relieve the Contractor of any responsibility for the production and delivery of the material at the proposed daily rate and the completion of the work within the specified time. Also **all payments for work performed by a subcontractor shall be made to the Contractor to whom the contract was awarded and the purchase order issued.**

## **12.0 Cancellation of Contract**

**12.1** If the supplier fails to carry out the performance of the work with sufficient workmen and equipment to insure the completion of the delivery within the time specified or becomes insolvent or is adjudicated a bankrupt or commits any act of bankruptcy or insolvency or allows any final judgment to stand against him for a period of ten days, the Missouri Department Of Transportation may give notice in writing by registered mail to the supplier and the surety of such delay, neglect or default. If, within ten days after such notice the supplier does not proceed to remedy to the satisfaction of the Department's representatives the faults specified in said notice, or the surety does not proceed to take over the deliveries, the Department shall have full power and authority, without impairing the obligation of the supplier under the contract or the surety under the bond, to take over the completion of the work and arrange for the shipment of any materials necessary to complete the work and the supplier and the surety will be responsible for any additional costs incurred by the Department in obtaining the completion of the deliveries.

## **13.0 Liquidated Damages**

**13.1** In the event the successful contractor fails to deliver the material within the time specified, the Department and the public will sustain damages because of such delay in delivery, the exact extent of which would be difficult to ascertain, and in order to liquidate such damage in advance it is agreed that the **sum of one-hundred dollars (\$100.00) per day, per item**, for each assessable calendar day on which the delivery has not been completed, is reasonable and the best estimate which the parties can arrive at as liquidated damages, and it is therefore agreed that said amount will be withheld from payments due the contractor or otherwise collected from the contractor as liquidated damages. **Saturdays, Sundays, holidays and days whereas the Department has suspended work** shall not be assessable days.

## **14.0 General Requirements**

**14.1** Provisions of the Missouri Statutes relative to legal weights in regard to axle and gross weights, gross weights in relation to axle spacing and Supplementary Bridge limits all contained in **Sections 304.180 and 304.190 RSMo** are understood and will be abided by. The Department will not accept loads which exceed legal weights.

**14.2** It is understood and agreed that the Missouri Department Of Transportation may prohibit the use of large trucks

hauling heavy loads of material over low type bituminous roads and during adverse weather conditions.

**14.3** If the prices bid herein include the delivery cost of the material, the undersigned agrees to pay all transportation charges on the material to destination, also any demurrage direct to the railroad or carrier.

**14.4** Contractor will not be required to provide dozers, loaders, motorgraders, or other equipment for shaping of stockpiles, constructing ramps or runways, or leveling of the top of a completed lift, unless otherwise noted herein.

**14.5** The contractor shall take necessary precautions and shall schedule and conduct his operations so as to avoid or minimize siltation of streams while removing gravel therefrom.

**14.6** Attention of the bidder is invited to the **Land Reclamation Act, Chapter 444, Laws of 1971, (House Bill 519)** and the necessity for compliance if applicable.

**14.7** The material to be supplied under the contract will comply with the quality and gradation requirements of the **Missouri Standard Specifications for Highway Construction, Edition of 2004**, and any revisions thereto, unless modified by these specifications.

**14.8** The Highways and Transportation Commission reserves the right to increase or decrease the quantity of material **twenty-five percent (25%)**, subject to the maximum quantity specified by the bidder in his bid. The quantity finally ordered by the Commission will be furnished by the bidder at the same unit price per ton.

## **15.0 Method of Measurement**

**15.1** For truck delivery, the quantities for basis of payment are to be determined as provided in **Section 310.5** of the **Missouri Standard Specifications for Highway Construction, Edition of 2004**, and any revisions thereto. Measurement will be to the nearest **100 lbs.** for each load when the measurement is by weight. Moisture tests will be rounded off to the nearest **0.5 percent** for purposes of computing the deduction for excess moisture.

## **16.0 Basis of Payment**

**16.1** The accepted quantities of aggregate material delivered to the stockpile or roadway will be paid for at the unit price for each of the pay items included in the contract.

**16.2** The accepted quantities of aggregate material pick up will be paid for at the unit price for each of the pay items included in the contract.

The **Bidder** represents he has a plant available for use in this work which is capable of producing the grade of material specified and guarantees that deliveries will be made at no less than the daily rate shown under "**Rate of Delivery**" in this bid and will, if necessary to maintain this delivery rate, immediately install any additional equipment needed to increase the rate of production or delivery.
