Title: Rapid Pavement Repair  
SFS 7-032207

Description: The Missouri Department of Transportation has determined that there is only one known source for MoDOT Rapid Cement Premix for pavement repair, Western Material & Design, LLC. Rapid Cement Premix is a one-component shrinkage compensated proprietary blend of cement, aggregates, and performance enhancing chemical additives in 70 lb. bags. This is used for horizontal concrete repairs that require high-early strength gain. Rapid Cement Premix is a patent pending formulation that was developed exclusively for the DOT market.

Contract Period: March 22, 2007 through March 26, 2007

Agency: Missouri Department of Transportation

Supplier: Western Material & Design, LLC

Buyer: Marsha Lovan
