## SINGLE FEASIBLE SOURCE PURCHASE POSTING NOTICE

**The Missouri Department of Transportation has determined that only one source can provide the products or services described below.**

**Title:** Automated Brine Maker - SFS 7-04080121

**Description:** The Missouri Department of Transportation's Maintenance division has determined that only one source, Cargill, North Olmsted, OH, can meet MoDOT's requirements for providing the department with an automated brined production plant system. The AccuBrine automated brine maker plant system is capable of: producing 5,000 gallons of brine per hour (based on available water supply of 6,000 gallon per hour and storage tank configuration static discharge of 45ft. / head pressure); flushing out all sediment collected in the bottom of the vessel with salt level full in the tank; completely automated and capable of producing brine without the intervention of an operator; automatically monitors and controls brine concentration between 19.6% and 27%; automatically records amount of water and salt used, and brine produced; and provides self-diagnostic monitoring and alerting of major component of the system.

Purchases will exceed \$25,000 and may be made during contract period below.

**Contract Period:** January 22, 2008 to June 30, 2008

**Renewal Options:** None

**Agency:** Missouri Department of Transportation
