

Welcome!

Thank you for attending tonight's meeting to learn about improvements to the

*Business Rte. 54 and
Second St. (Rte. O) intersection.*

The proposed improvements include realigning the current intersection to construct a roundabout. The Stinson Creek Bridges on Bus. Rte. 54 and Second Street will be replaced with one box culvert.

Please take an opportunity to view the displays and visit with project staff. Your questions and comments are encouraged.
