

MoDOT Minute – Oct. 13

Hi. This is Sally Oxenhandler with your MoDOT Minute.

On the heels of last week's torrential rainfall that caused road closings throughout much of the state and with more rain in the forecast, the Missouri Department of Transportation is reminding motorists about tools they can use to check road conditions before driving. MoDOT's traveler information map, located at www.modot.org, shows roads closed due to flooding, incidents or work zones. The department's traffic management centers also offer real-time traffic updates. You can find them online at www.kcscout.net and www.gatewayguide.com. And if you tweet, you can check out traffic information on MoDOT's twitter pages by going to www.modot.org and clicking on the Twitter symbol. The department also offers around-the-clock customer service by calling toll-free 888-ASK-MODOT. In rainy weather, the department says it's important for motorists to plan ahead, stay alert and drive cautiously

That's been your MoDOT Minute. Remember to check back every Tuesday for new information.
