

## **Multimodal Operations**

The Multimodal Operations Division performs statewide planning; grant administration, and technical assistance, in areas of aviation, railroads, transit and waterways. In addition, MoDOT does have regulatory responsibility over railroads.

This section begins with an estimated financial summary for the next five state fiscal years. Financial information for fiscal year 2009 is based on the best available information. Financial summaries beyond fiscal year 2010 are estimates. Changes in any fiscal year may occur depending on the availability of state, federal or local funds; federal or state laws and regulations; local goals and objectives; or unforeseen changes in planning variables.

Program descriptions, funding priorities and associated projects are described within the appropriate modal area of responsibility. The programs and projects identified in this section are based on the best information available at the time of printing. Projects that exceed the estimated cost by 10 percent or \$75,000 will be brought to the Missouri Highways and Transportation Commission (MHTC) for approval, except as proscribed in federally funded program guidelines. MoDOT will handle lesser amounts. The inclusion of any specific project in this section does not constitute final approval of or the commitment of any funds by the Missouri Highways Transportation Commission.

## Multimodal Operations Estimated Financial Summary For Fiscal Years 2009-2013

## **State Transportation Assistance Revolving Fund**

In 1996, Senate Bill 780 established the State Transportation Assistance Revolving Fund, and an initial appropriation of \$2.5 million was made in 1997. Provisions are contained in state statute 226.191. The Missouri Highways and Transportation Commission administer the fund, which assists political subdivisions or not-for-profit organizations in the development of non-highway related transportation facilities. This includes aviation, rail, water or mass transit facilities. Funds cannot be used for operating expenses or for the construction or maintenance of state highways. The following are the specific eligibility requirements:

- The planning, acquisition, development and construction of facilities for transportation by air, water, rail or mass transit;
- The purchase of vehicles for the transportation of elderly or handicapped persons; or
- The purchase of rolling stock for transit purposes.

Applications are received at any time; however, they are reviewed twice a year on March 1 and Sept. 1. Loans are awarded based on the type of project, the benefit to the public, the financial viability and the local sponsor's willingness and ability to complete the project. Loan repayments and any interest earned go back into the fund for additional transportation projects. Since inception, this program has been primarily used to help local public airports finance improvements not eligible for federal or state grant programs. This includes the construction of approximately 150 T-hangars, two aviation-fueling facilities and a general aviation terminal building. The program also assisted in financing a multimodal facility in St. Louis to bring together passenger rail, MetroLink and public transit modes.

# Aviation

**Grant Program Funding** - Aviation grant programs assist eligible sponsors in the planning, purchase, construction, maintenance and improvement of airports.

Federal funding is appropriated by the U.S. Congress through the Federal Airport Improvement Program and provides up to 95 percent of eligible project costs. Missouri is one of eight states currently participating in the State Block Grant Program under which MoDOT administers federal aviation funding to general aviation airports. The FAA programs and administers federal funding to the larger airports with commercial passenger service over 10,000 annual passenger enplanements.

There is a significant amount of uncertainty associated with federal aviation funding. Notification of the amount to be received and the actual transfer of funds often do not occur until several months into the federal fiscal year. Also, programs such as the non-primary airport entitlement program can significantly impact funding available for MoDOT programming, but it is only implemented if Congress appropriates funding above a threshold level. There are currently 69 airports participating in this entitlement program. Eligible airports may receive federal funding of up to \$150,000 annually. MoDOT is basically a pass-through agency for the non-primary airport entitlement program. Current federal legislation for the non-primary entitlement program expires in 2008. There are also opportunities for additional federal funding through discretionary grants. MoDOT staff will continue to aggressively pursue this additional funding whenever possible.

State funding comes from the State Aviation Trust Fund, which derives its revenue from a portion of the state sales tax on jet fuel and a 9-cent per gallon tax on aviation gasoline. On state/local projects, the state can provide up to 90 percent of eligible project costs. The state can also provide up to 50 percent of the local share on federally funded projects. Safety-related equipment and services do not require cost sharing.

**Project Priorities** - The primary sources for prioritizing airport projects are the FAA National Plan of Integrated Airport Systems, MoDOT State Airport System Plan, and coordination with East-West Gateway Council of Governments and Mid-America Regional Council. The National Plan of Integrated Airport Systems establishes basic criteria for airports to be eligible for federal aviation funds. The State Airport System Plan is a working document updated regularly to reflect current activity levels and changes to airport facilities and air navigation aids.

Project applications are reviewed and funds are distributed based on an established priority system that considers items such as the number of based aircraft, activity levels and the type of project requested. Other factors considered are the political subdivision's willingness and ability to complete the project, commitment of local matching funds, prior maintenance and support of the airport, and aviation staff knowledge of airport needs. While this part is subjective, it is based upon facts and experience.

# Railroads

Missouri is located in the central corridors of the nation's railroad transportation system, with St. Louis and Kansas City being the second and third largest rail hubs in the nation, behind only Chicago, IL. Approximately 60 percent of the freight products entering Missouri, both raw materials and finished products, are moved into Missouri on the rail system. The rail system is also critical to the nation's passenger rail transportation and Missouri's passenger service between St. Louis and Kansas City.

The MoDOT Multimodal Division administers the state's railroad program. This program includes freight rail regulation, passenger rail, light rail safety regulation, highway/rail crossing safety, rail/highway construction, and railroad safety inspection and outreach.

**Passenger Rail** – Two round-trips per day are currently provided between St. Louis and Kansas City, with stops in Kirkwood, Washington, Hermann, Jefferson City, Sedalia, Warrensburg, Lee's Summit and Independence. In fiscal year 07, service was provided to more than 144,000 passengers. There is not a dedicated funding source for passenger rail. Passenger rail is subject to legislative general revenue appropriation each year.

In fiscal year 08, Amtrak's cost of providing the service was \$7,400,000. The Missouri General Assembly appropriated \$7,400,000 for the service. A \$5 surcharge is imposed on Missouri's intrastate rail passengers to help defray the cost of the service.

In fiscal year 08, Amtrak's cost of providing the service will be approximately \$8,000,000. The Missouri General Assembly has been asked to appropriate that amount. The amount is already reduced due to the anticipated \$5 surcharge credits using estimates from the current year's surcharge credits. Amtrak collects and estimates the surcharge revenue under a procedure implemented in fiscal year 07.

The passenger rail route is owned and maintained by the Union Pacific Railroad. During calendar year 2008, the railroad has some track and curve-rail projects, but fortunately none of them should have a major effect on train schedules. The railroad will also complete a five-mile double track project over the Gasconade River during the summer of 2008.

**Highway/Rail Crossing Safety Program** - There are approximately 3,900 public highway/rail crossings in Missouri. These crossings are evaluated and ranked annually according to a hazard exposure index that considers such items as train traffic and speed, vehicle traffic and speed, crossing accident history, and sight distance. Each year, there are approximately \$5.9 million of FHWA Surface Transportation Program Safety Funds, and approximately \$1.2 million state funds from the state Grade Crossing Safety Account available to address safety issues at these crossings. The Grade Crossing Safety Account funds are created from a state motor vehicle licensing fee. On the average, it costs \$150,000 to \$200,000 per crossing for highway/rail safety improvements, resulting in improvement to approximately 30 to 35 crossings per year. Project improvements typically include the installation of railroad crossing signal devices, and may vary in scope and completion dates depending on funding availability and programming restrictions, each fiscal year. A project may also last for a duration of more than one, two or more fiscal years due to funding restrictions and other unanticipated events. Since 1976, this program has resulted in an 81 percent decrease in crashes; a 76 percent decrease in fatalities; and an 83 percent decrease in injuries.

## **Railroad Acronyms**

AM	Arkansas and Missouri Railroad Company
BGKX	Belton-Grandview Railway
BSR	Branson Scenic Railway
BNSF	BNSF Railway Company
CMR	Central Midland Railway Company
CBRM	Chillicothe-Brunswick Rail Maintenance Authority/MO North Central RR
COLT	Columbia Terminal Railroad Company
IC&E	Iowa, Chicago & Eastern Railroad Corporation
KAW	Kaw River Railroad
KCS	Kansas City Southern Railway Company
KCT	Kansas City Terminal Railway Company
MRS	Manufacturers' Railway Company
MNA	Missouri & Northern Arkansas Railroad Company
MVP	Missouri Valley Park Railroad
NS	Norfolk Southern Railway Company
OVA	Ozark Valley Railroad
SLIM	St. Louis Iron Mountain Railroad
SE	SEMO Port Railroad, Inc.
TRRA	Terminal Railroad Association of St. Louis
UP	Union Pacific Railroad Company

## Transit Metropolitan Planning Grants Section 5303 and Section 5305

**Section 5303 and Section 5305 of Chapter 53, Title 49, U.S.C. Federal Transit Administration** – The department administers Federal Transit Administration Section 5303 and Section 5305 (formerly Federal Transit Act Section 8) planning grants for transit planning activities of the seven metropolitan planning areas of East-West Gateway Council of Governments (St. Louis area), Mid-America Regional Council (Kansas City and Lee’s Summit areas), Ozark Transportation Organization (Springfield,) and the cities of Joplin, St. Joseph, Columbia and Jefferson City.

Funds are distributed to metropolitan planning organizations (MPOs) based on a federal Census population formula. There is no discretion in the initial distribution of funds, although funds must address identified transit planning activities in a Metropolitan Planning Organization’s Unified Planning Work Program. Unused funds can be reallocated to any urbanized area as the department determines.

MoDOT combines their funds in a consolidated planning grant to MPO’s with Federal Highway Administration (FHWA) planning (PL) funds to simplify grant administration. Only the Section 5303 and 5305 metropolitan transit planning funds are shown on this page.

# Urbanized Transit Systems Formula Grants

## Federal Transit Administration

### Section 5307 and State Financial Assistance

**Section 5307 of Chapter 53, Title 49, U.S.C. Federal Transit Administration** – Funds come to Missouri on the basis of a national formula that provides capital assistance to transit systems in urban areas over 200,000 population and both capital assistance and operating assistance to transit systems in small urbanized areas with populations between 50,000 – 200,000. The department allocates funds on behalf of the governor for the small-urbanized areas of Columbia, Joplin, St. Joseph, Jefferson City and Lee’s Summit based on the same formula. The Federal Transit Administration allocates funds directly to the St. Louis, Kansas City, and Springfield urbanized areas.

This federal assistance does not flow through MoDOT. Federal regulations on the use of capital funds for maintenance have been relaxed. Many traditional operating expenses such as major preventative maintenance are now eligible for capital funding. Amounts of Sec. 5307 funds for St. Louis may include some formula funding for Illinois population and funding for Kansas City and St. Joseph for their Kansas populations.

## Discretionary Transit Capital Grants Section 5309 – Bus and Bus Facilities

**Section 5309 of Chapter 53, Title 49, U.S.C. Federal Transit Administration** – Section 5309 is a national discretionary capital grant program funded from the Mass Transit Account of the Highway Trust Fund. It restricts funds to capital assistance for general public transportation systems and/or systems that provide community-wide assistance to all persons with disabilities. These funds are applicable statewide. Eligible recipients of Section 5309 assistance are public entities and not-for-profit organizations that provide general public transit services. Section 5309 assistance has become the major source of funding transit capital projects throughout the state. Capital purchases are funded with 80 percent federal and 20 percent local moneys.

		<b>STATE FISCAL YEAR PROJECT BUDGETING</b>				
		<b>7/2008- 6/2009</b>	<b>7/2009- 6/2010</b>	<b>7/2010- 6/2011</b>	<b>7/2011- 6/2012</b>	<b>7/2012 6/2013</b>
Vehicles and Transit Facilities	Federal Asst	20,000,000	20,000,000	20,000,000	20,000,000	20,000,000
	Local Match	5,000,000	5,000,000	5,000,000	5,000,000	5,000,000
	<b>TOTALS</b>	<b>25,000,000</b>	<b>25,000,000</b>	<b>25,000,000</b>	<b>25,000,000</b>	<b>25,000,000</b>

Since 1993 (with the exceptions of 2002, 2006 and 2007), Missouri’s Congressional delegation has been able to earmark appropriations of Section 5309 funds on a statewide basis to Missouri for buses and bus facilities. MoDOT administers funding from the statewide appropriation as well as funding designated for rural transit providers.

First priority is given to vehicle purchases; second priority is given to transit support equipment; and third priority is given to facilities.

Within the vehicle category, first priority is given to replacement vehicles that have met federal standards for useful life. Vehicles to expand service are the second priority.

Availability of local matching funds and sufficient funds to operate vehicles over their useful life must be demonstrated prior to award.

# Elderly and Persons with Disabilities Capital Assistance Program Federal Transit Administration – Section 5310

**Section 5310 of Chapter 53, Title 49, U.S.C. Federal Transit Administration** – Section 5310 funds provide capital assistance for non-profit organizations that provide service to senior citizens and persons with disabilities. Missouri receives an annual statewide allocation of federal assistance to purchase vehicles, primarily vans. Capital assistance is 80 percent federal and 20 percent local. Beginning in state fiscal year 2008 with FFY 2007 funds, projects to be funded by Section 5310 must be derived from a locally developed, coordinate public transit – human services transportation plan.

		<b>STATE FISCAL YEAR PROJECT BUDGETING</b>				
		<b>7/2008- 6/2009</b>	<b>7/2009- 6/2010</b>	<b>7/2010- 6/2011</b>	<b>7/2011- 6/2012</b>	<b>7/2012 6/2013</b>
<b>Section 5310</b>	MoDOT Administered Federal Funds	2,504,953	2,655,250	2,655,250	2,655,250	2,655,250
	Local Match	626,238	663,812	663,812	663,812	663,812
	<b>TOTALS</b>	<b>3,131,191</b>	<b>3,319,062</b>	<b>3,319,062</b>	<b>3,319,062</b>	<b>3,319,062</b>

MoDOT sub-allocates this funding to out-state and to urbanized areas of Columbia, Joplin, Jefferson City, Kansas City, Springfield, St. Joseph and St. Louis based on their respective elderly and disabled persons populations. Each of the urbanized areas has established their own project evaluation criteria.

Non-urbanized funds are programmed directly by the department on the basis of trips provided by the recipient organizations with extra weight given to medical, nutritional and other necessary trips. Replacement vehicles are given a priority over expansion vehicles. Financial capability to provide the local match and operate the vehicles must be demonstrated.

## Non-Urbanized Area Public Transportation Formula Grants Federal Transit Administration Section 5311 and State Funds

**Section 5311 of Chapter 53, Title 49, U.S.C. Federal Transit Administration** – Section 5311 provides capital and operating assistance to public transportation systems in non-urbanized areas. A non-urbanized area is an area outside a city of 50,000 or more inhabitants and its densely settled fringe areas. Section 5311 projects include planning and technical studies, system design, capital acquisition, and assistance in defraying operating losses. Intercity over-the-road bus services also are eligible for funding.

Eligible recipients of Section 5311 assistance include public bodies, private not-for-profit corporations and operators of service that provide general public transportation services. Private for-profit providers of service are eligible through purchase of service agreements with a local public body for the provision of public transportation services. For-profit intercity carriers are also eligible.

Planning, program administration, marketing, training and related technical studies are currently funded entirely with federal funds. Capital projects are funded 80 percent federal and 20 percent local. Operating assistance projects may receive up to 50 percent of their net loss from the federal grant.

		<b>STATE FISCAL YEAR PROJECT BUDGETING</b>				
		<b>7/2008- 6/2009</b>	<b>7/2009- 6/2010</b>	<b>7/2010- 6/2011</b>	<b>7/2011- 6/2012</b>	<b>7/2012 6/2013</b>

MoDOT administers these Sec. 5311 federal funds for eligible transit program costs. State funds are 100 percent of the appropriation with 3 percent held in the governor's reserve. MoDOT does not handle local matching funds. Changes in individual contract amounts up to 10 percent may be made as circumstances warrant.

## Missouri Elderly and Handicapped Transportation Assistance Program

The Missouri Elderly and Handicapped Transportation Assistance Program (MEHTAP) provides state funds to approximately 200 non-profit organizations statewide who offer transportation services to the senior citizens and persons with disabilities at below-cost rates. State general revenue funds are divided among grantees taking into account ridership, costs and alternative services available (208.250 RSMo). Trips weighted by type (medical, essential services, recreation) determine total ridership. Costs are estimated by total vehicle miles operated by each recipient. Weighted trips and vehicle miles are given equal weights in computing a preliminary formula division of funds.

The preliminary formula division is adjusted for alternative services available, local resources and special client needs. Some discretion is exercised to adjust for inequities stemming from longevity in the program.

Each year, project funding is contingent upon receipt of applications from eligible providers and an appropriation from the state legislature. Federal, local and private matching funds of over \$24,000,000 do not flow through MoDOT.

## Rural Transit Assistance Program Section 5311 (b)

**Section 5311 (b) of Chapter 53, Title 49, U.S.C. Federal Transit Administration** - The department administers the Federal Transit Administration Section 5311 (b) Rural Transit Assistance Program for the development and implementation of training, technical assistance and other support services for use by local transit providers in non-urbanized areas. No matching funds are required.

Federal Transit Administration allocates Rural Transit Assistance Program funds to each state based on an administrative formula. Federal Transit Administration first allocates \$65,000 to each state, and then it distributes the balance of the annual funding according to the non-urbanized population of each state.

		<b>STATE FISCAL YEAR PROJECT BUDGETING</b>				
		<b>7/2008- 6/2009</b>	<b>7/2009- 6/2010</b>	<b>7/2010- 6/2011</b>	<b>7/2011- 6/2012</b>	<b>7/2012 6/2013</b>

## Statewide Transit Planning Grants Section 5304

**Section 5304 of Chapter 53, Title 49, U.S.C. Federal Transit Administration** - The department administers Federal Transit Administration statewide transit planning and other technical assistance activities grants (formerly Section 5313) that can be used for planning support for non-urbanized areas, research, development and demonstration projects, fellowships for training in the public transportation field, university research and human resource development.

Federal Transit Administration distributes funds to the department based on the latest census information and the state's urbanized area as compared to the urbanized area of all states. However, a state must receive at least 0.5 percent of the amount annually apportioned. For these planning and technical assistance activities, the federal share is 80 percent, and the local non-federal share is 20 percent.

<b>STATE FISCAL YEAR PROJECT BUDGETING</b>

## Transit Jobs Access and Reverse Commute Grant Program Section 5316

**Section 5316 of Chapter 53, Title 49, U.S.C. - Federal Transit Administration** – The department administers Federal Transit Administration Section 5316 Jobs Access and Reverse Commute (JARC) program grants either earmarked to the state or designated to rural and small urban recipients prior to 2006 or appropriated to rural and small urbanized areas by formula in FFY 2006 and thereafter. This grant category funds up to 50 percent of the net cost to provide mobility services designed for new employees and low-income workers. This program will also fund up to 80 percent of capital costs for vehicles, equipment and facilities that support transit services providing mobility to new employees and low-income workers.

Prior to FFY 2006, Job Access and Reverse Commute grants were awarded by both a Congressional discretionary process as well as by a nationwide competitive process. Starting in FFY 2006, Job Access and Reverse Commute funds are appropriated to each state by formula with formula sub-allocations to direct recipient large urbanized areas (St. Louis, Kansas City and Springfield), as well as formula allocation in aggregate for a state’s small urbanized areas and formula allocation for the rural area of each state. Projects in small urbanized areas and projects in rural areas must be competitively selected on a statewide basis and be derived from locally developed, coordinated public transit – human services transportation plans. The two focuses of these grants are to either transport low-income or formerly jobless persons to employment and/or to transport low-income city dwellers to job sites located in suburban areas (reverse commute), such as industrial parks.

## New Freedom Transit Grant Program Section 5317

**Section 5317 of Chapter 53, Title 49, U.S.C. - Federal Transit Administration** – The department will administer Federal Transit Administration Section 5317 New Freedom formula program grants in a program created by Congress in the federal transportation reauthorization legislation, SAFETEA-LU as appropriated for rural and small urbanized areas by formula. This grant category funds up to 50 percent of the net cost to provide new mobility services, primarily for persons with disabilities when those mobility services are beyond the requirements of the Americans with Disabilities Act (ADA). This program will also fund up to 80 percent of capital costs for vehicles, equipment and facilities that support transit new services, primarily for persons with disabilities, for services beyond the requirements of ADA, or facility accessibility improvements beyond the requirements of the ADA not otherwise incorporated in an existing or planned project.

Starting in FFY 2006, New Freedom funds are appropriated to each state by formula with formula sub-allocations to direct recipient large urbanized areas, as well as formula allocations for a state’s small urbanized areas and formula allocations for the rural area of each state. New Freedom projects in small urbanized areas and projects in rural areas must be competitively selected on a statewide basis and be derived from locally developed, coordinated public transit – human services transportation plans.

# Waterways

Missouri is fortunate to have over 1,000 miles of navigable waterways on the Mississippi and Missouri rivers, which provide tremendous opportunities for waterborne commerce. Currently, approximately 2.2 million tons of material, worth an estimated \$4.1 billion, is handled through Missouri's public port authorities annually. Barge transport provides an environmentally friendly way to transport large amounts of material at a lower cost compared to other modes. One barge can hold the equivalent of 15 railcars or 60 trucks. The Missouri General Assembly appropriates funding for waterway programs from general revenue and/or the State Transportation Fund.

**Port Authority Administrative Grants** - Ports apply for the administrative grants annually. The administrative grants are used to reimburse public port authorities for administrative costs, such as salaries, benefits, travel, office expenses and utilities. These grants are subject to an annual audit and do not require a match. The administrative grants were established to assist public port authorities as they establish their economic base (i.e. "keep the lights on"). New language was added to allow funds to be used for either administrative expenses or capital projects. This program has received an annual appropriation of approximately \$150,000-\$450,000 since FY 2004 and currently provides assistance to the following port authorities:

Howard/Cooper Co. Regional  
Lewis Co./Canton  
New Bourbon Regional  
St. Joseph Regional  
Southeast Missouri Regional

Jefferson County  
Marion County  
New Madrid County  
St. Louis County  
Mid-America Port Commission

Kansas City  
Mississippi County  
Pemiscot County  
St. Louis City

**Ferry Boat Operating Assistance** - The State of Missouri currently subsidizes two public ferry boat operations in New Bourbon and Mississippi Counties. In 2007, they provided transport to over 73,400 passengers and 30,000 vehicles across the Mississippi River. \$75,000 has been appropriated annually to support each ferryboat operation since FY 1999, an increase to \$80,000 was approved in FY 2008. The State of Kentucky also matches dollar for dollar support for the Mississippi County ferry boat.

**Port Capital Improvement Program** – Capital improvement grants assist ports with capital expenditures, such as dock construction, mooring dolphins, access improvements, utility extensions, and general site development. Grants require a 20 percent local match and are subject to audit. There was little state funding support for port capital projects until FY 2007 when \$1,500,000 was appropriated from the State Transportation Fund, it is difficult to predict funding in future years. The Missouri Port Authority Association and MoDOT have cooperatively completed an assessment of port infrastructure needs detailing approximately \$15.3 million in critical/immediate port capital improvement needs. Should additional capital funds be appropriated, grants will be awarded based on the applications submitted, respective budgets, audit reports, and viability and opportunity of growth at each port authority.
